AMENDMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Responsive to the letter of May 5, 2005, please amend this application as follows:

In the Claims:

Claim1. (presently amended) A complex comprised of at least one negatively charged nucleic acid and at least one positively charged polymeric conjugate with the bond therebetween being electrostatic in nature.

the polymeric conjugate containing a polylysine formed from monomers having free

NH_3^+ groups.

at least 10% of free NH_3^+ groups of the said polylysine are substituted by residues which

are protonated in a weakly acid medium causing destabilization of cell

membranes.
